A background image of two construction workers. On the left, a woman with dark hair wearing a yellow hard hat and clear safety glasses with orange accents. On the right, a man with a beard wearing a yellow hard hat and clear safety glasses with orange accents. They are both looking towards the camera. The man is holding a yellow tablet and pointing at it with his right hand. The background is a blurred industrial setting.

COMPLETE ENGINEERING SOLUTIONS, MANUFACTURING, INSTALLATION
AND MAINTENANCE

ABOUT US

MMP (PTY) LTD is building a better future by applying world-class expertise to solve its clients' greatest challenges. Our employees provide professional and technical solutions that deliver safe, well-executed, capital-efficient projects to clients around the world.

We provide a range of engineering, production support, maintenance management services and consulting services to energy and industrial sectors in Southern Africa.

VALUES STATEMENT

MMPES (PTY) LTD is a diverse civil engineering firm comprising companies specialising in Southern Africa based project construction, project management and coordination of a wide range of contracting services and construction. Our extensively experienced and highly motivated team enables us to provide a positive and unique blend of resources, management and technical ability to meet the highest of standards for our clients.

OUR CORE VALUES

Wherever we operate, we strive to live by its core values of:

- People
- Excellence
- Transformation
- Customer focus
- Innovation
- Integrity and
- Performance

01

We got the tools:

Not only do we provide the know-how, but we have the equipment to go with it.

02

Innovative and Creative

We have no issue in problem solving on the spot, as well as having creative and innovative solutions

03

Impact through infrastructure.

Our projects cross markets, disciplines and geographies, creating a footprint of impact that enables communities, environments and economies to thrive.

WE BUILD SMART SOLUTIONS THAT WILL IGNITE YOUR VISION

Our extensively experienced and highly motivated team enables us to provide a positive and unique engineering solutions to meet the highest standards of complex projects to suit our client's needs.

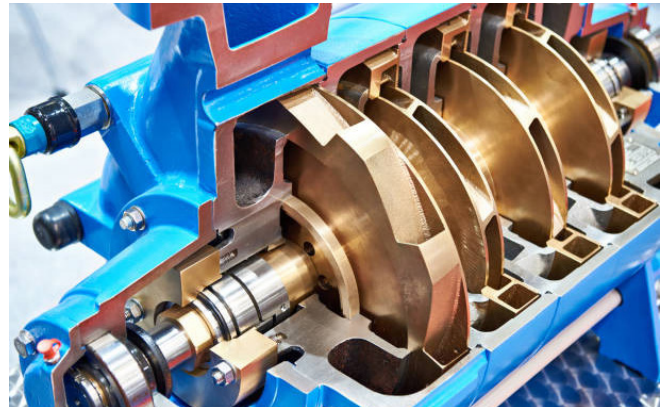

WHAT WE DO

MMPES offers maintenance contracts on a monthly or customer-defined basis. Preventative tasks that we perform may include, but are not limited to the following:

MAINTENANCE SERVICES

- Steam and Gas Turbines
- Pumps: Single-stage and multi-stage
- Compressors: Centrifugal, Axial and Reciprocating
- Gearboxes
- Valves
- Hydraulics and Pneumatics systems

BOILERMAKING

- General Metal Work
- General Metal Repairs Work
- Truck Trailers Repairs
- General Metal Maintenance Work
- Steel Tank Repairs
- Steel Vessel Repairs
- Load Bin Repairs
- Steel Structures

CORROSION ENGINEERING

- Corrosion Surveys
- Pipe condition, wall loss and coating assessments
- Corrosion control design services
 1. Environmental analysis
 2. Material selection and evaluation
 3. Coating selection and evaluation
 4. Cathodic protection design
- Corrosion monitoring services
- AC and DC stray current mitigation
- Field surveys and troubleshooting

PLANT ENGINEERING

- Reverse engineering
- Equipment design

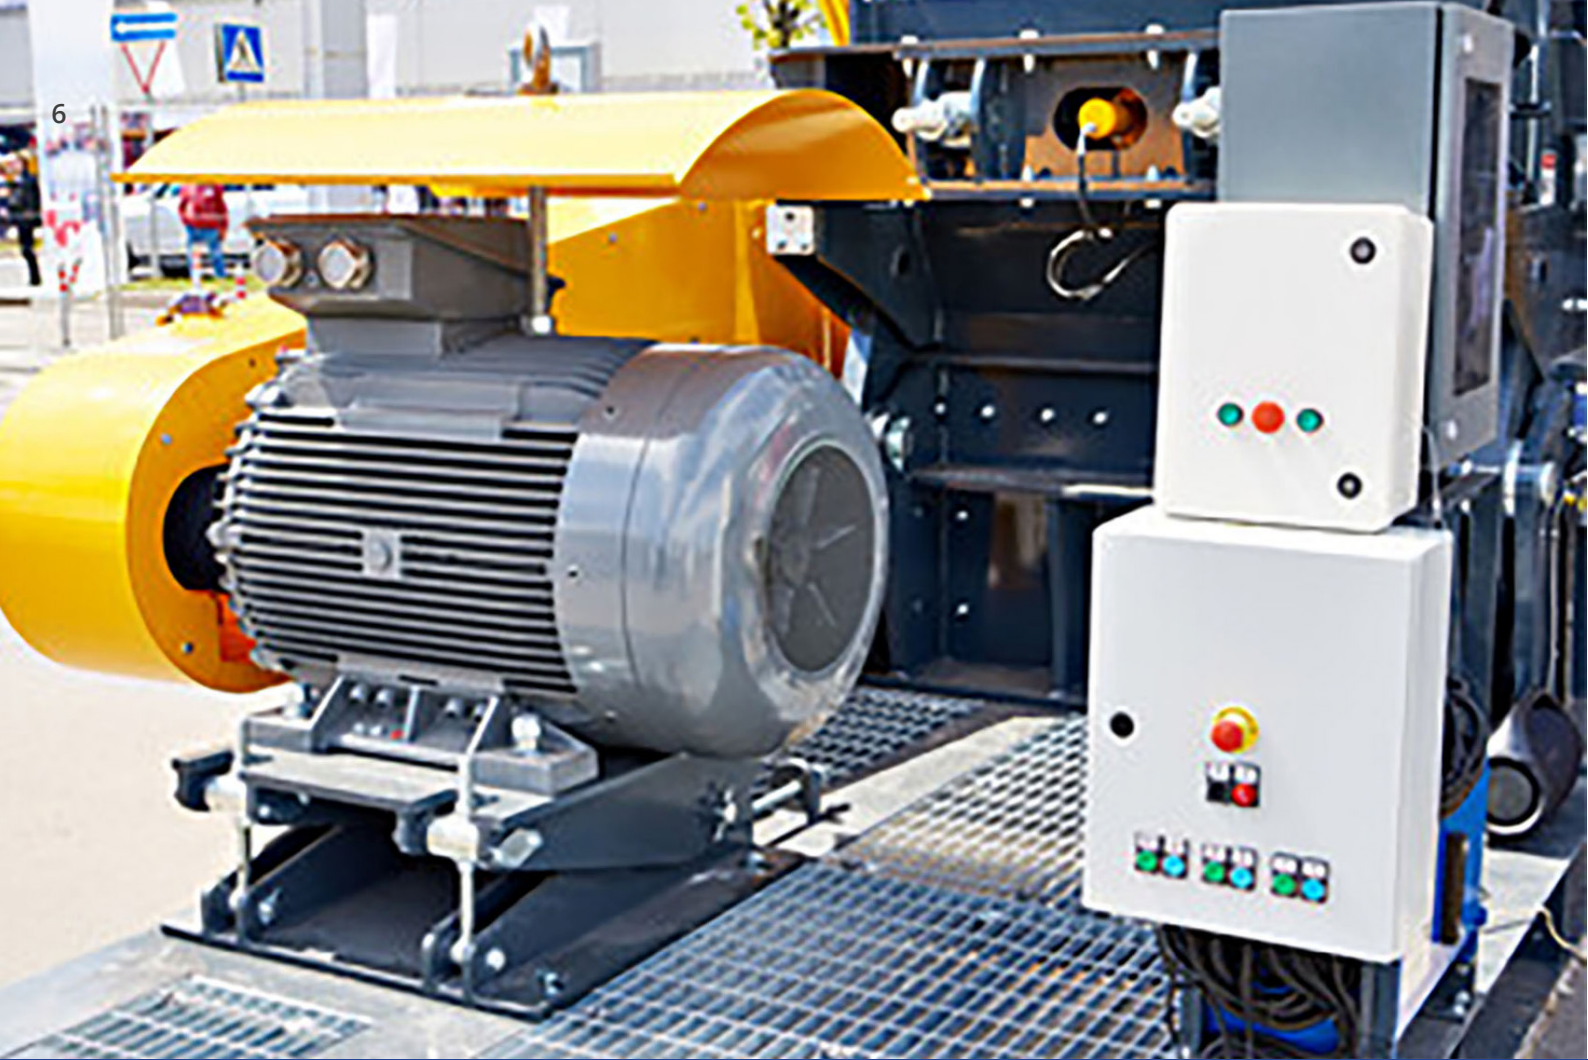

ELECTRICAL ENGINEERING

- Maintenance of switch gears
- Maintenance of electrical system
- Electrical motors
- Electrical installation

CIVIL ENGINEERING

- Land Survey
- Buildings
 - Residential units

INSTRUMENTATION ENGINEERING

- Calibration of Various Process Instrumentation
- Physical inspection of all instrumentation
- Cleaning Sensors / transducers
- General operation inspection (Relay outputs, alarms and power supplies)
- Testing of SCADA and MA (milliamp) outputs
- Panel Wiring
- Electro-Pneumatics and Hydraulics Equipment troubleshooting
- Variable Speed Drives
- Troubleshooting (Software, Electrical and Mechanical system)

SAFETY, HEALTH & ENVIRONMENTAL MANAGEMENT

MMPES's safety, health and environment (SHE) policy and practices centre around a zero-harm philosophy towards people, host communities and the environment.

Our approach to safety and wellbeing is a holistic one, with an equal focus on emotional and physical harm. We consider the duty of care we have to our people, as well as to our clients and partners. Our safeguarding and modern slavery experts ensure the same standards are applied to our supply chains and the communities in which we work.

We positively influence safety and wellbeing standards through our engineers, general workers and management. We work closely with our equality, diversity, and inclusion team so that all our programmes support people from all backgrounds.

We are approaching our target of zero harm on physical accidents that affect our people and projects. At the same

time, we are becoming increasingly concerned about the rise in mental health and wellbeing issues facing our people. So we took this opportunity to look back at our journey in its entirety to celebrate our achievements but, more importantly, to reflect on ways to continually improve our workplace safety and wellbeing.
